

Initiatives

In November 2010 Ysgol Ty Coch was involved in review visit from Estyn, HMI, and Ms Penny Lewis. The visit followed on from a questionnaire that was completed regarding the 'Thinking Skills' project that the school was involved in during 2008 onwards. The visit included the following format. We were able to show how YTC addresses the Assessment for Learning agenda and how all pupils were involved in their own learning.

ESTYN visit

Discussion:

- Response to questionnaire
- Impact of developments
- Impact on pupil engagement with learning
- Impact on classroom practice
- Autism 1 Mathematics group session. The lesson demonstrated the impact of AFL
- Post 16- focus -discussion with pupils involvement in their own learning
- School project developing Welsh assessment

We understand that information collected is used to report back on the impact of the project and its implementation in school and is included in published reports on the Estyn web site.
