

Ysgol Ty Coch

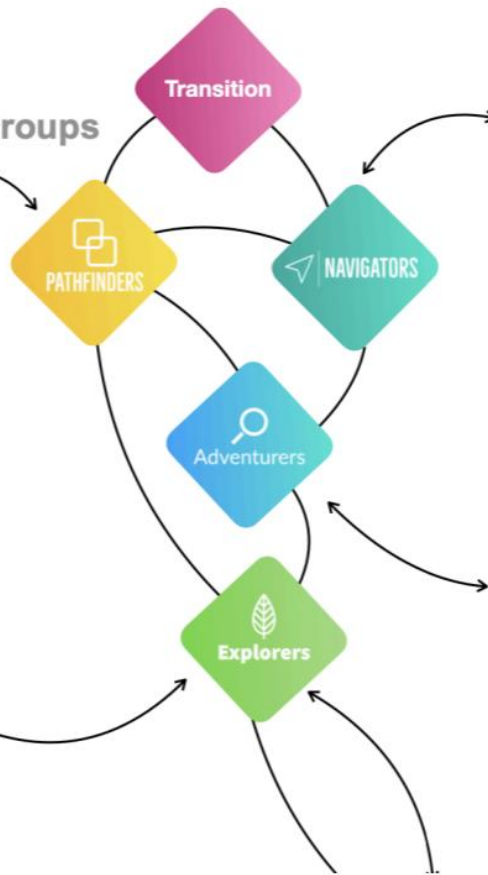

2023 - 2024

Draft Progression Groups

Pupils can transfer between Pathways to suit their personal progression.

Our **Pathfinders** are preparing to transition to a range of service and further education placements. They access a range of pre-formal, semi-formal and formal curricular in school and in the community and work to complete a range of relevant qualifications. Some classes will work closely with the Navigators and access aspects of their curriculum.

Explorers are developing their pre-formal and semi formal skills. Some pupils are exploring the environment, whilst some are exploring their senses and others are focused on developing functionally equivalent skills. Pupils are focused on developing their sensory integration skills, physical development skills and their early knowledge and understanding. A small number of pupils will remain in Explorers for their school career and complete appropriate qualifications leading on to appropriate placements.

Our **Navigators** are preparing to access formal education at college or the world of work. At school almost all of the pupils are working to enhance their skills for life and develop the skills to achieve a range of semi formal and formal qualifications both in school and at college. They take part in appropriate work experience activities and work towards managing their personal affairs.

Our **Adventurers** are developing many skills across the curriculum to prepare themselves for a semi and formal curriculum. They develop core physical, literacy, numeracy and digital skills to generalise these in future years to support their achievement of qualifications and access the workplace.
