Understanding Seesaw's Purpose

Seesaw is a platform for learners engagement. Teachers can empower learners to create, reflect, share, and collaborate. Learners “show what they know” using photos, videos, drawings, text, PDFs, and links. It’s simple to get learners work in one place and share with families, and nothing is shared without teacher approval.

What parents can see

Families only have access to their child's journals.

- This means you will see student work tagged with your child's name and posts the teacher tags with 'Everyone'.
- Families will also be able to see any comment made by another user on their child's journal posts.
- Family members cannot access any other student's content.

Why keep a Journal?

To help me remember things, especially details

To share something cool with other people

To try and figure something out or help myself solve a problem

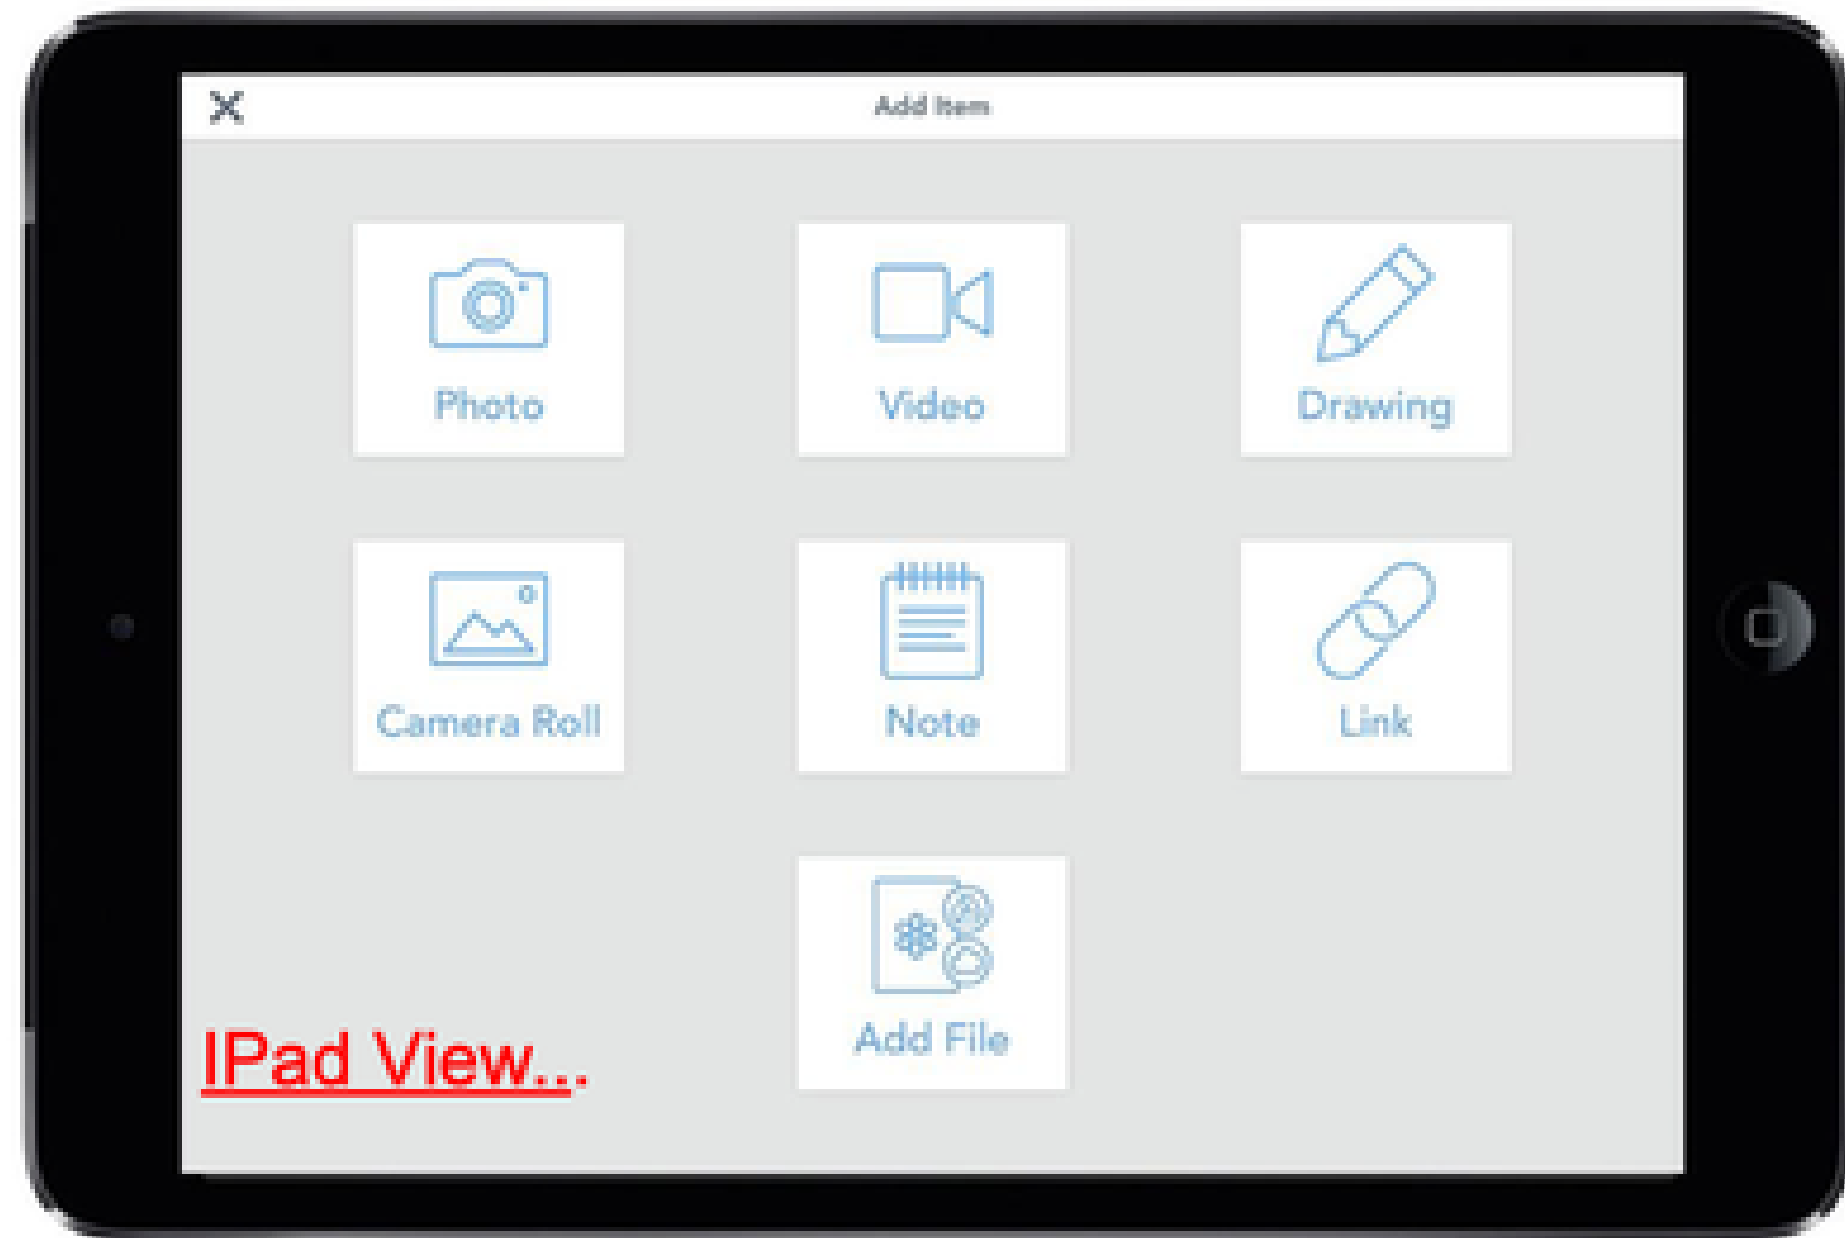

So I can look back to see what was great or what was difficult

So I have a place to be creative and brainstorm new ideas

Respect. Communicate. Enjoy.

In journal you can..

Take a photo or video, make a drawing, write a note, share a link or add something you've made in another app.
