

Three Ways to Participate in Your Child's Learning Using Seesaw

Seesaw

1

Support and Encourage

Get a window into your child's learning throughout the school day. Offer words of encouragement and praise by liking and leaving positive comments on their work. You can even leave voice comments on posts! Imagine how excited your child would be to hear your voice during the school day.

2

Stay Connected with Teachers

Send your child's teacher a private message anytime to share the learning going on at home, ask questions, or share concerns.

3

Track Progress Effortlessly

Say goodbye to the hassle of organizing paperwork! Seesaw's digital journal helps you to effortlessly monitor your child's growth throughout the year. Plus, you can add up to 9 other family members to join in and engage with your child's learning experience. **Teachers can also share progress report directly via messages.*
